Zola Predosa (BO), 5 November 2020 – The Board of Directors of **GVS S.p.A.**, a leading player providing advanced filtration solutions for critical applications, meeting today at Zola Predosa (BO), approves the consolidated results at 30 September 2020 prepared in accordance with the IFRS international accounting standards.

*“The results recorded in the first three quarters confirm the quality of our work during the year and the great team that managed it. I am proud to present the data that fully reflect who we are and what we can do, also in these turbulent times.” - said **Massimo Scagliarini, CEO of GVS.** - “We are now working on projects with a three-year time-frame, with the aim of continuing the drive initiated in 2020 and continuing to grow the company as we have done over the last 20 years. The launch of the new kit for the extraction of RNA, viral genetic material on which the diagnostic test for Covid-19 is based, is another example of our flexibility and adaptability to the everyday challenges we face on the market. We work constantly on expanding our Group, in terms of its international presence, product innovation and assessing possibilities for growth, also through external lines. The final months of 2020 will be challenging but full of opportunities and we will face them, as always, with due prudence, attention and serenity, so as to optimise the work performed so far.”*

ANALYSIS OF THE GROUP'S ECONOMIC PERFORMANCE

At 30 September 2020 GVS recorded **consolidated revenue of Euro 258.2 million**, up 49.6% compared to the Euro 172.5 million recorded in the same period in 2019. This result is mainly due to the growth of the Health & Safety and Healthcare & Life Sciences divisions, in both cases driven by the demands arising from the spread of Covid-19.

The trend and distribution of the revenue from contracts with clients at 30 September 2020 can be broken down as follows:

- the **Healthcare & Life Sciences** division, that represents 45% of the total, grew by approximately 33% compared to the same period in 2019;
- the **Energy & Mobility** division, that represents 18% of the total, recorded a reduction of 30% compared to the same period in 2019, due to the overall slow-down of the sector;
- the **Health & Safety** division represents 37% of the total, an increase from the 10% at 31 December 2019 due to a significant growth in the demand for personal protection equipment (FFP3) for the hospital sector.

The Adjusted EBITDA¹ stands at Euro 104.1 million, +122% compared to 30 September 2019, when it stood at Euro 46.9 million, recording a profit margin of 40.3% compared to 27.2% in the first nine months of 2019. This increase is attributable to the procurement strategies put in place in the last three years, which allow us to set the cost of relevant raw materials with an overview covering the entire year, along with the speed with which the 41 new production lines were installed at the Group's plants throughout the world, which increased the level of operating leverage and the efficiency of specific processes. The **EBITDA** stands at Euro 98.4 million (+111%) compared to Euro 46.7 million, with a ratio to revenue of 38%.

The Adjusted EBIT² stands at Euro 92.8 million, +147% compared to the same period last year when it stood at Euro 37.7 million. The **EBIT** stands at Euro 84.3 million (+145%) compared to Euro 34.5 million, with a ratio to revenue of 33%.

The Adjusted Net Result³ amounts to Euro 63.9 million, up compared to Euro 29.4 million in the first nine months of 2019 and is negatively affected by exchange rate differences of Euro 6.3 million. The Net Profit stands at Euro 57.2 million (+115%) compared to Euro 26.6 million in the same period in 2019.

The Net Financial Position at 30 September 2020 stands at Euro 1.2 million compared to Euro 103.1 million at 31 December 2019. This result, along with the current trend of operations and the acquisitions made, also reflects the income generated from the capital increase linked to the IPO of Euro 79.8 million.

BUSINESS OUTLOOK

In light of the increase in revenue from contracts with clients at 30 September 2020 and of the current orders portfolio, GVS expects to record a profit at the end of 2020 of approximately Euro 350 million, up 54% compared to 31 December 2019 and an Adjusted EBITDA Margin in line with the results recorded at 30 September 2020.
